

7 JULY 2025

FDA Food Contact Compliance Statement:

LM4 - Woven Polyester

NOTE: This statement is made on the information provided to us by the material supplier and corresponds with our actual knowledge. BFM® fitting uses the LM4 fibre to manufacture our LM4 connectors, however, we cannot guarantee the suitability of the material for any given application and assume no liability in connection with the information provided below.

LM4 is a 100% polyester fibre which meets with the compositional requirements of the following FDA regulations for Indirect Food Additives: Polymers, intended to come into contact with food:

CFR21, part 177.2800

This applies to all dry food and powder product.

SIGNED ON BEHALF OF BFM GLOBAL LTD

MATTHEW BAILEY
